Supply Chain Solutions You Can Trust, Peace of Mind You Deserve

If I asked a customer of
yours what would they
say about WPL?

*"They make importing
seamless."*

*"Wen-Parker brought
efficiency to our global
supply chain."*

At Wen-Parker (WPL), we are more than a global freight forwarder—we are a team of experienced logistics professionals who believe every shipment deserves precision, care, and transparency. Since 1997, customers have chosen WPL because we combine worldwide reach with boutique-level service, delivering the speed, accuracy, and personalized attention that today's supply chains demand.

Tell me about WPL's global reach and local expertise.

Our people are the heart of our success. WPL's seasoned experts bring deep industry knowledge, hands-on problem-solving, and a customer-first mindset to every shipment we move. Whether by air, ocean, or ground, we provide end-to-end solutions that keep cargo moving efficiently and reliably.

With coverage spanning more than 80 countries, WPL's global network ensures that our customers receive consistent, dependable service no matter where their business takes them. Our presence across key markets allows us to manage complex, multi-origin supply chains with ease, offering local insight paired with worldwide coordination.

What other end-to-end solutions does WPL offer?

WPL offers far more than freight forwarding. Our comprehensive suite of services includes customs brokerage, consolidation programs, origin and vendor management, warehousing and fulfillment, and purchase order management.

By leveraging advanced digital tools and emerging AI workflows, we enhance every stage of the supply chain—providing real-time visibility, predictive insights, and automated processes that improve efficiency and reduce risk. Integrating these capabilities allows us to deliver a seamless, end-to-end experience with greater control, transparency, and operational excellence.

How did WPL earn its reputation as a sustainability leader?

At WPL, we combine efficient logistics with environmental responsibility. Our partnership with 4ocean supports the removal of 20,000 pounds of plastic from oceans, rivers, and coastlines annually, reflecting our commitment to a sustainable future.
